Design ← VISUAL SKILLSET → Development

“ The dumbest mistake is viewing design as something you do at the end of the process to ‘tidy up’ the mess, as opposed to understanding it’s a ‘day one’ issue and part of everything. ”

- Tom Peterson

I am a designer by degree, and a Front-End Developer by passion. My greatest joy in life is creating something from nothing, and that is why I love what I do. I’m focused, determined, skilled in a multitude of fields, a team player, and about a 1/3 the height of a full grown male giraffe.
