EXPERIENCE

Freelance UI/UX Designer / Web Designer 2014 - Current

www.imjamicrosby.com.com

Currently, I am a freelance designer. Over the last year have worked with companies like Victory Tactics, Outdoorsy, ARdVRk Technologies, Craft Vapor, and Instawork on projects ranging from brand direction, visual design, front end development, and ui/ux design.

Fixya.com 2014 - 2015

www.fixya.com

At Fixya, I was a UI / UX Designer and Front End Developer. I worked on the creating and designing a platform that has a customer base of over a million. I specialized in creating clean and versatile interactions that were intuitive, making the site easy to use for customers. After the designs were accepted, I developed the front end functionality needed using JQuery, HTML and CSS for the back end developers to hook up.

Nixle LLC. 2014 - 2014

www.nixle.com

At Nixle, I was a designer / technical account manager. My main task at Nixle was to completely redesign all training and marketing material. Outside of design, I was also in charge of all training and technical troubleshooting.

Deane Smith 2012 - 2013

www.deanesmith.agency

At Deane Smith, I was a graphic designer that specialized in corporate branding and logo creation. I designed for both conservative and modern clients, alike.

MY FAVORITE THINGS ARE...

creating things! The best part about my career is that I get the chance to create all sorts of things and only be limited by my own imagination. From websites, to branding, to vintage motorcycles.
